Privacy Policy for VidiGusto

Last Updated: January 2026

1. Controller

The controller responsible for data processing is the publisher of the VidiGusto app. Contact information can be found in the app's legal notice or App Store listing.

Robert Hein, Oher Weg 67, 21465 Reinbek, Germany - support@vidigusto.com

2. Data Processing and Purpose

We process personal data only as necessary to provide the app's functions.

- **Account Data:** Username, email address, encrypted password.
- **Usage Data:** Movie ratings (likes/dislikes), swipe behavior, IP address, region.
- **Purpose:** Providing personalized recommendations, account security, cross-device synchronization.

3. Third-Party Service Providers (Data Processors)

We use external service providers to operate the app technically. Data processing agreements are in place with these providers.

A. Hosting (Render.com) Our servers and databases are hosted by **Render**.

- **Server Location:** We have explicitly selected the **Frankfurt (Germany)** region to ensure that your data is stored and processed primarily within the European Union.

B. In-App Purchases (RevenueCat) We use **RevenueCat** for the technical processing and validation of purchases.

- **Processed Data:** An anonymized App User ID and store transaction receipts (purchase date, product ID, expiration date).
- **Financial Data:** Neither we nor RevenueCat have access to your credit card details or bank account information. These are processed exclusively by Apple or Google.

C. Artificial Intelligence (Google Gemini) To generate recommendations, we send data to Google.

- **Processed Data:** Lists of your preferred movies and genre preferences. This data is transmitted in a pseudonymized form. No real names are sent to the AI.

D. Movie Data (TMDB) Movie images and metadata are loaded from "The Movie Database". Due to technical reasons, your IP address is transmitted to TMDB during this process.

4. Your Rights

You have the right to access, rectify, delete ("Right to be Forgotten"), and restrict the processing of your personal data at any time. You can delete your account and all associated data directly within the app's profile settings.

5. Data Security

We use modern encryption technologies (TLS/HTTPS) to protect your data during transmission. Passwords are stored exclusively as cryptographic hashes (bcrypt).
